GALESBURG SENIOR HIGH SCHOOL, GALESBURG, ILLINOIS

OCTOBER 9, 1958

## MERIT SCHOLARSHIPS ANNOUNCED

MERIT WINNERS—Ann Black, Francis Dahlberg, and Richard Reno are shown after receiving news of their National Merit Scores.

### Dahlberg, Black, Reno Win Honors

A great honor, that of being semi-finalists in the 1958-59 National Merit Scholarship, has been given to three students of GHS.

The students are Ann Black, Frances Dahlberg, and Richard Reno. They are among 10,000 other students who had the highest scores in the nation-wide test of educational development. This test was given to high schools last April 29.

This group of 10,000 finalists is composed of the highest scorers in each state.

#### Second Test To Be Given

A second test is to be given on December 6, 1958. The students who repeat their high scores on this will be Finalists.

"This program is to make it possible for all these Finalists to enter college next fall," stated Mr. Stalnaker, president of the National Merit Scholarship Corporation.

All the Finalists will receive certificates of merit. All colleges and universities will be contacted to enable these students to receive other scholarship awards.

#### Make Own Choice of College

Merit scholars can make their own choice of college. They are free to choose any course of study leading to a bachelor's degree.

The Merit Scholarship Program is now on its fourth year. Over 2,300 of the nation's most able students, are now holding Merit Scholarships at some 325 colleges. Nearly one million high school students have been tested.

GHS wishes the best of luck to Ann, Frances, and Dick on their next test.

### Council Opens Supply Store For Students

Last week in the Student Council meeting a committee was appointed to look into the possibilities of selling school supplies. This project would not only be of service to the Galesburg Senior High School but it would also be a source of income for the Student Council. The committee appointed consisted of Chairman Patsy Ledbetter, Bob Tomlin, Karen Swanson, David Peterson, and Bill Holmes and was organized to size up the situation.

#### Many Items To Be Sold

Among some of the many items which you might be able to buy from the Student Council are notebook paper, ink, ink refills, lead pencil refills, rulers, compasses, protractors, graph paper, and Kleenex. This service will be operated on a small scale basis at first, but they hope soon to expand it.

It is hoped that they can begin selling some time during next week. You will be able to purchase most of your supplies at the ticket window by the main office. Three members of the Student Council will be at the window from approximately 7:55-8:25 before school in the morning. This service will be especially convenient when we make the move to the new high school, where we will not be so close to the business district.

### looking ahead

Oct. 17—Varsity football at Pekin.  
Sophomore Football at Rock Island.

Oct. 20—JV Football at Burlington.

Oct. 21—PTA Open House.

Oct. 24—Homecoming Football with Bloomington.

Oct. 25—Homecoming Dance.  
Oct. 27—JV Football at Knoxville.

Oct. 28—Sophomore Football at Richwoods.

### Red Cross Begins Annual Campaign

Did you receive your Red Cross pin for this year? If you did, you were one of those students who participated in the 1958-59 Red Cross drive here at Galesburg High School. Sponsored by our nurse, Mrs. Frances Findahl, the drive was recently completed with the following results: Approximately \$50 in cash received, as compared with \$70 of last year's drive, and two complete Red Cross boxes filled. These contributions have now been turned over to Mrs. Sullivan at the Red Cross office, where they will be sorted with the other boxes turned in by Galesburg schools, and finally sent abroad where seen fit by Red Cross officials.

Mrs. Findahl reported that each advisory received one Red Cross box to fill, along with supplementary material concerning the purpose of the drive. Each advisory was then responsible for the filling of its own box. The contents were to be primarily small items of a useful nature, so as to be used by needy children in other countries. In addition to these articles, monetary contributions were also accepted.

## Budget Interviews Superintendent Of District 205

In a recent interview with Dr. Bell, the new superintendent of schools in Galesburg, we came across some interesting facts.

#### Impression of Student Body

When asking Dr. Bell what his impression of the student body was as a whole, a short statement was made. He said that the only time that he had had the opportunity to be with us, was at our Student Council Induction Assembly, but his first impression was fine.

Furthering our talk, we asked the superintendent to compare our school with the one he had recently been acquainted with. Dr. Bell said that GHS is twice as big, considering that the other high school only had about 650 students. In associating the facilities, they are also in the process of building a new school.

#### Student's Goals

Concerning a student's goals, he made this comment: "A student should freely utilize the opportunities given him, and should strive for excellence. The happiest student is

### Publications Staff Sells Hot Dogs At School Noon Hour

During third period do you get that certain feeling about facing your peanut butter and jelly sandwich for lunch? If so, those days can be gone forever. The hot dog age is here. As far as Galesburg High School is concerned that modern era has arrived. Each noon excepting Wednesday, you will be able to buy a hot

one who has participated in school activities."

We also realized that Dr. Bell had been a coach for seventeen years. Coaching basketball, track and girls' volleyball, went together to take up his time.

#### From Missouri

Dr. Bell is from Farmington, Missouri, some seventy-five miles south of St. Louis. His family consists of his wife and a twelve-year-old daughter.

dog on a roll plus all the relish you want on it for the low price of twenty cents. Remember now, in the main hall across from the office.

#### Fund Raising Project

This new idea was chosen upon as a fund raising project by the BUDGET. The staff also had another idea in mind which was to get rid of some of the undernourished (?) students we have here.

Don't forget, just follow your nose and it will lead you right to the hot dogs. Happy eating!

LITTLE MAN ON CAMPUS

by Dick Bibler

## Musicians Prepare For Next Half-Time Show

Under the baton of Mr. Edwin Lantz, the Galesburg High School Band will display another half time program on October 11th. This performance, entitled "Old and New Favorites," will take place during the half of the Galesburg-Richwoods game.

### Many Selections

The band will enter from the far end while playing "When the Saints Come Marching In." Following this, the musicians will face the Galesburg side and play "76 Trombones." With the band remaining in the same formation, the majorettes will form a drum, to twirl to "Jungle Drums." This song features the drum section which has been enlarged this year by two new tenor drums. They are being played by Wendy Van Fleet and Skip Augustson.

Following this, the band will form a bell, facing the Richwoods stands, and play "The Bells of Saint Mary's." Next the band will march to the Richwood side and play "Stouthearted Men." They will exit in two rows via a snappy drum cadence.

The head majorettes for this year will be Judy Hix and Suzanne Johnson.

The rest of the majorettes include Cherry Cross, Linda Anderson, Linda Ballou, Mary Ann Eck, Colleen, Jacobs Irene Johnson and Sandy Silvey.

Catlin gave the assembly a marvelous speech on the Lincoln-Douglas Debates and the connection with present day affairs. Dr. Catlin brought his speech to a close by introducing to the school body Mr. Sokup and Mr. Bartow.

Mr. Sokup, a junior at Knox College here in Galesburg and a speech major, was chosen to take the part of Douglas in the Centennial Debate to be held Tuesday afternoon, October 7, on Knox campus at the original site, east of Old Main.

Mr. Bartow, a graduate of the University of Oklahoma with a masters degree in drama, was chosen to act the part of Lincoln.

The two gave a portion of the original debate and did a tremendous job. They seemed quite capable of taking on the identities of the "Little Giant" and "Honest Abe" during the debate.

## Latin Club Makes Champaign Trip

At 5:30 a. m. September 27, the Latin students departed from GHS on their yearly trip to Champaign. Along with the eighty-four students who went were Mr. and Mrs. Reuter and Mr. and Mrs. Hegg.

### Bloomington, First Stop

The first stop was at Bloomington where a few of the students ate breakfast. They arrived in Champaign in mid-morning and first went to the Classical Museum. Next was the Renaissance Museum. In these museums were statues, letters, and other interesting things from Roman times.

Some of the students then took a tour through the Union Building. They also ate lunch there.

Game Between Illinois and—

At 1:00 p. m. the students again boarded the buses and rode out to the football stadium. The students saw a game between Illinois and UCLA. There they saw Larry Stewart and Dee Donovan, who graduated from GHS in recent years.

Next, the students again got into the bus. This time, the bus going toward home. When the bus arrived back in Galesburg everyone was tired from a very exciting day.

Two additions have been made to the English department of Galesburg High this year. They are Mr. Krause and Mr. Stuckey.

Mr. Stuckey's position on the GHS faculty is his first in the teaching field. He graduated from Knox College this summer with a major in English and minors in Spanish and psychology. He has also taken courses from the University of Colorado and the University of Illinois.

## Band And Orchestra Elect New Officers

As we all knew, the band is one of the most important organizations of the school. It does an excellent job of creating school spirit and enthusiasm among the students. The band has, in previous years, performed for many different occasions, and each time the performance has been extraordinary. So far this year, the band has met and possibly exceeded its past records.

We owe our band a great deal of credit. Sometimes we forget the long hours of hard work the band members practice. All this work is for the benefit of the students and public. Mr. Lantz also deserves much credit for his direction. The orchestra, also under the direction of Mr. Lantz, has done a splendid job of performing both for school activities and outside activities. For this early in the year, they seem to have an exceptionally good start.

### Both Active Groups

Band and orchestra are both active groups, and in order to properly attend to all their business, they need officers to assist in the work and planning which is necessary. The officers of orchestra are president, Dorilee Walworth; vice-president, John Gardner; secretary, Milo Jonson; and treasurer, Jean Gibbs. Also in the band, a representative from each grade is chosen to form a counsel. They include: senior, Don Bell; junior, Linda Anderson; and sophomore, Glen Glas.

Let's all give the band and orchestra a good backing for they certainly deserve it. This year should be a very outstanding one!

Although the Red Cross Drive was very successful to date, Mrs. Findahl has not yet received the final total.

## District Music Contest Plans Are Announced

Galesburg will be host for the District Music Contest. This is the first time it has been in Galesburg since 1950.

Soloists and ensembles will be judged Saturday, February 28. The band, orchestra, and choir copeters will meet Saturday, April 4. First place winners of ensembles will go to the state April 17, and the band, orchestra, or choir, Saturday, April 18.

This is one of several district contests which are held in different places on the same day. Six to eight counties will come to Galesburg. Over 1500 students participated in this from 30 different schools last year.

The A Capella will sing at Galesburg's open house on the twenty-first of October. A big turnout is anticipated.

The Future Farmers of America are now selling subscriptions to magazines. If you are interested, contact any member.

The class floats are now in the process of being completed. To make Homecoming a real success, we need everyone's full co-operation on this project. Hope to see you there!

Three sophomores are now playing for the varsity squad in football. They are Lindell Goodman, Jack DeWeese, and Phil Ulm. Goodman is a half-back, while DeWeese and Ulm play end.

# Lincoln - Douglas Debates Honored In GHS Assembly

By Sandra Silvey

An assembly was held Friday afternoon, October 3, in the auditorium. This assembly served a double purpose; it was the local kickoff for Employ the Physically Handicapped Week and the Centennial Debate.

Starting off the assembly was the awarding of prizes to students who were winners in the NEPH poster and illustration contest and which were drawn during the spring school term.

Gwyn Williams, a senior at GHS, was the winner of first place in Class I and her prize was a \$50 savings bond. Second place and a \$25 savings bond went to Marsha Payton, a junior this year.

Becky May, third place winner, and Myrna Weaverling and Sandra Waldeck, honorable mention winners, also received cash prizes.

The Class II winners were then announced. These were: Judy Heady, first place winner; Fred Strader second place winner; Jack Wunderlich, third place winner; and Bob Eagle with an honorable mention. Honorable mention also went to Nancy Parrish, a

ninth grader from Lombard Junior High school. Each received a cash award.

As an additional award, each first place winner was presented with a gift certificate by Bernard Schimmel, managing director of Hotel Custer.

Next, Mr. Broadhead, conducting the assembly, introduced Reverend Catlin of the United Brethren church.

The assembly was ended by Mr. Hegg directing the A Capella Choir in a medley of ten songs made famous in the history of the United States. The choir ended with "Battle Hymn of the Repub-

GOOD LUCK—That seems to be the sentiment as Arthur Barton in the part of Lincoln and Richard Sopup as Douglas prepare to enact the Lincoln-Douglas debates.

## NROTC Exams Scheduled

This spring the NROTC exams will be offered again to the Senior students at Galesburg High School as well as to students from other schools around the country. These exams enable high school graduates an opportunity to earn scholarships to Navy accredited colleges.

### Must Pass Mental Exam

To be eligible to take the written exam you must first pass the mental exam. This is given in Peoria or Davenport. Upon successful completion of this test, you are given a complete physical exam in Chicago by the Navy. The written exam is most generally given at some college. Math and Science are the two subjects which are emphasized the most on these tests. After passing these three tests, you are interviewed by a representative of the Navy before final selections of candidates are made.

When a student completes four or five years of college work, depending on the degree desired, he is commissioned an ensign in the Navy.

## Future Nurses Plan 1958-59

One of the very well known organizations at Galesburg High School, the Future Nurses of America, held their first meeting in Room 211 on September 17. The Future Nurses of America is sponsored by the school nurse, Mrs. Findahl. At this meeting, the officers were elected. The president is Diann Anderson, a senior at Galesburg High. Linda Soderquist, a former GHS student, spoke to the girls about the different phases of Nursing. Miss Soderquist is a senior in Nurses Training at the Cottage Hospital.

### Held Second Meeting

The Future Nurses held their second meeting October first at the Galesburg State Research Hospital. Mrs. Doyle, a nurse at the Galesburg Research Hospital, showed the girls one of the many wards where the patients at the hospital stay and work. Later two of the volunteer workers told the girls about some of the

## Ma, Pa, And Me Night Held By Future Homemakers

Annual Ma, Pa and Me Night for the FHA members and their folks is October 12, at 7:30 p. m. in the girl's gym. This is a National project hoping to bring mothers and fathers a little closer to their teenagers. The parents enjoy themselves and have a lot of fun at this meeting.

Starting out with recreation as a sort of ice-breaker, Kay Melton and her committee will be in charge.

Then will be the regular business meeting with Diana Staff, president, in charge.

special services they perform throughout the day. Slides were shown, giving the girls an idea of what is done and how they do it so it will interest the girls in the Nursing field. The slides also gave the girls a detailed tour of the hospital. After the program was completed, the girls received refreshments.

The main business at hand will be getting the taffy distributed for sale. All FHA members will be selling Salt Water Taffy in the near future.

### Budget To Be Accepted

A budget will be accepted, that has been presented by Yvonne Eagar and her finance committee. The U.N.E.S.I.O. stamps will be sold, with the money going to help people in Liberia.

There will be check on girls to help with tag day, October 12, and then on with the rest of recreation. There will be several games played including the Ma's and Pa's.

### Travel Talk Given

The program will be a travel talk by Mrs. Newton Hawkins and she will show slides that she has taken.

Following this, the girls and their folks will end up in the Home Ec. building to have refreshments. Linda Benson is in charge of this.

## French Club Elects Officers, Outlines Objectives For Year

French Club, sponsored by Mr. Turner, held their first planning meeting of the year on September 30th. They de-

cided on their dues, club pens, and many of the goals they plan to reach. Some of them are a trip to St. Louis or Chicago, and to learn more about the French nation, their people, and their customs. They also enjoy the fun of French games and singing French songs. They usually have at least one party a year (which is called Soiree in French.)

### Use Language Laboratories

They also hope to use language laboratories where they hear tapes of the language and in that way they learn more about the way to pronounce the French language.

The principle of the club is to promote more of an understanding between the French Union and the American people.

### New Officers

Officers of the club are as follows: President, Bob Tomlin; vice-president, Beth Christy; secretary, Linda Gunther; corresponding secretary, Leslie Woods; and treasurer, Linda Lyon. Publicity man is Shardlow Hansen.

French club is a club that is fun, interesting and helpful to you, all wrapped up in one. It is one of the most active clubs in high school.

## Editorial

## PUBLICATION'S DILEMMA

Before the year even started, we of publications knew that this was going to be a trying year for one reason—lack of financial support!

To help alleviate this problem, members of the publication staff have taken it upon themselves to initiate several money raising campaigns. In addition to sponsoring concessions at football games, these individuals may be spotted selling car ornaments, autograph books, and hot dogs at noon.

These projects are not for personal profit, but plainly for the sake of performing a service for you, the students of GHS. This money is being collected so that YOU can have a school newspaper every two weeks and so that YOU can have a yearbook that you can be proud to remember—a yearbook that will have a card cover and not a paper cover.

Therefore, you can see that these campaigns presently being carried on are certainly for a good cause. They are definitely rendering a service to you, the students. Thus, it is your civic duty to patronize these efforts in return for this service.

## COLLEGE BOUND

Attention, all seniors! If you are seriously considering attending college you should start now in making your applications to the various colleges and universities of your choice.

With the college shortage problem we have in the United States, it is important that those who are interested in gaining admittance act now in order not to run the risk of not getting into any college at all.

According to Lovejoy's College Guide, the best plan is to select about ten colleges that interest you and write each for materials and application data. It is advisable when selecting a college, says Lovejoy, to consider such things as expense, size of school and community, and whether or not the school would be suitable for vocational plans. Lovejoy also agrees that the earlier application is made the better your chances are. So get started now, avoid the rush!

## THOUGHT OF THE WEEK

We are starting a new section in this column called the "Thought of the Week." The thought of the week will be a philosophy expressed by some noted person, which should be of value to students at GHS. The first of these is by an American author, Lydia Sigourney.

"The true order of learning should be, first, what is necessary; second, what is useful; and third, what is ornamental. To reverse this arrangement is like beginning to build at the top of the edifice."

## The Budget

Published twice monthly during the school year by the students of Galesburg Senior High School.  
Subscription price \$1.00 per year.

## AUTUMN LEAVES

As I scuffed slowly along the path, the crisp, dry leaves crunched and crackled under my feet like an elf in a bowl of corn flakes. Somehow the dull brown leaves seemed like the long dead memories of summer than lay strewn along the pathway of my life. I kicked at a pebble and a flurry of memories rose before my eyes.

The last day of school came into view, with its sweet and sad laughter, happy shouts, and the shining promise of the long summer days that lay ahead.

A few days later came Graduation. How beautifully solemn the ceremony was, and how strange to see some of the kids you have known so long taking the final step in their school lives.

I remembered the long summer days spent working, and the too short summer evenings of fun.

Once again I felt the cold spray of water as it closed around me in the season's first swim, and the bright, hot glare of the sun on the smooth, warm sand.

I remembered the tennis games, with all the lost balls and broken racquets; the moonlight walks under the blue white stars, the drowsy chirp of crickets ringing in the soft night air.

I remembered . . . oh, I remembered so many things. Then the little swirl of leaves fell silent at my feet, and summer was gone. Only the dull, dry, brown leaves were left to remind me of that wonderful summer.

Overhead a bird called a sharp farewell as he took flight for the south. I looked up to see that the tips of the trees had burst into flaming color, heralding a new season. Yes, summer was gone, but a newer, brighter season was ahead. There were many new days to come, days that would be filled with golden sunshine and the brightly colored leaves of new memories.

## SENIOR ALLEY

By Lucia Trevino

Well, hello there, fellow humans, and sophomores. We are back again this year with the column you liked so well last year—Senior Alley! The purpose of this article is to introduce a few of the seniors to all newcomers, and sophomores. Since I know you're all anxious to meet our very first 'interviewees', I'll cut out the chatter, and get on with it.

Frances Dahlberg, the much-busy editor of the REFLECTOR is also Parliamentarian for Science Club, a member of Orchesis, GSL, GAA, Latin Senate, National Honor Society, Latin Honor Society, and SAA (busy anyone?).

Francis' hobbies consist of skating, swimming, reading, playing the piano and her viola, and writing to her pen-pals.

When asked what her favorite foods were she quickly answered, "Desserts!" Especially, Graham Cracker Pie and Peanut Butter Cake (?).

Her future plans being to go to college, no special one at this writing, to be a doctor or something scientific, or get married.

Frances has decided she likes GHS as it is and

## Tal-Kio-Tucka

It was September 13, in the year 2,058. Susan and her chums were walking down Earth Lane in the city of New Galesburg on the moon. The three girls were on their way to watch a jetball game.

This game is somewhat like the old-fashioned game of football. The object of it is to break through the opposing team's line and carry the ball through the goal post. Each player on the fifteen-man team is equipped with a small jet engine in a special case carried on the back. Of course, there are a few rules: such as, don't fly over 20 feet off the ground, and don't deliberately blow your exhaust in the face of a member of the opposing team.

Susan, Lynda and Willa finally reached the jetball field and gave the ticket taker their N. G. S. S. S. A. A. (New Galesburg Scientific School Student's Activity Association) card.

The girls found some seats in the center section of the stadium, beside some of their closest friends. They immediately fell into a discussion of the latest fashions. Lynda declared that she thought the space suits with the waistlines and full overskirts were simply terrible, while Willa felt that the new helmets with built in TV antennas were out of this world.

After a few minutes the game started and Susan shut off her two-way radio, with which she had been conversing with the other girls, and turned on her pocket TV, so that she could get a better view of the game. With the first blast-off, the crowd stood and yelled "Tal-Kio-Tucka," which is moon talk for "Hi-Ho Silver Away!" The best player on the opposing team got the ball and flew down the field at 250 miles per hour, but was blocked head on by one of New Galesburg's players traveling at a speed of 260 miles per hour. The players were a little shaken up, but stayed in the game.

Anyway, the game progressed rapidly and at the half time, New Galesburg had made four landings, giving them 40 points and New Peoria had made five landings for a total of 50 points.

Susan conversed with the other girls for a few minutes and then noticed that the band was beginning to play, so she tuned them in on her radio and enjoyed the music during the half.

The game resumed shortly and both teams fought fast and furiously. At the end of the third quarter the girls were hungry so they bought some taffy apple pills. The rest of the game passed quickly with the final score: New Galesburg 90, New Peoria 80.

After fighting their way through the mob, the girls went to the "Squadron" for hamburg and coke pills. All in all, it was a very exciting game.

Perhaps by now you are wondering "Did she see this in a movie? Did she dream it? Or, could this story actually come true?" No one, not even I, knows.

has no favorite expressions she could think of.

To satisfy all the male hungry females around GHS, we called on the quite likable Bob Mills.

It seems Bob's main "like" about GHS is Study Hall. He also seemed to like the long noon hours quite well. It seems his only dislike about GHS is the lack of parking space.

His favorite expression, "I give up!" does not seem to fit with his future plans to attend the University of Florida. Bob's favorite food is steak which may have something to do with why Bob goes all out for Football, Baseball, Golf and Basketball. Bob is also a member of G Club, harmonizers, Boys Forum and SAA.

## BABYSITTING

What a day! It seems the teachers had given an unusually heavy amount of tests and assignments. To top it all off I had promised to babysit with the sweet little children (Sweet, ha!) next door.

By the time I finished our pile of dinner dishes I was already ten minutes late for my job. Upon greeting my victims for the evening, the youngest one promptly took out his squirt gun and gave me a mighty blast in the eye. His mother only commented, "He's such a playful child." (Playful indeed, wouldn't I like to tell her.)

Then the parents retreated for the evening, leaving me with their three little demons. The oldest boy persisted in jumping from the top to the bottom of the stairs (all in one leap) and pasting postage stamps on the windows. The little girl had me hold her doll, while she fed it a bowl of cereal. But do you think the cereal went into the doll's mouth. Of course not. Instead my new blouse became covered with her sticky mixture.

The whole evening continued in this same hectic way, until a few minor disasters occurred. A large glass of pop was spilled onto the new carpet; several crayons were crushed into the armchair; and the little boy received a king-size bruise on his forehead, resulting from a blow by his older brother.

After a thoroughly harrowing evening of fighting and screaming, I was a nervous wreck. At last I put the children to bed and began my homework. Frequently they came downstairs, supposedly for water, but especially to see that I wasn't getting any work done.

I vowed after that horrible experience that I would never sit with those brats again. When their parents returned home, their mother remarked, "The children didn't give you any trouble, did they?"

I answered, "Oh no, we had a perfect evening." (A perfectly awful evening, I mean.)

But what do you think happened the next week? These same little brats bought me a lovely birthday present. As they sang "Happy Birthday" to me, all was forgiven.

## Fall

To me, the most wonderful season of all, each year is fall. Of course the other seasons, Spring, Summer and Winter, each has its own attraction for me, but fall always seems to bring something a little extra special.

Just why I love fall so much is a question that I have often asked myself. Now, after a great deal of thought I think I've found at least part of the answer.

First of all, think of all the fun we have in fall. An example of this is hayrack rides. I'm almost sure we've all been on at least one this year.

Then what about wiener roasts? Could there be anything more fun than roasting wieners and marshmallows with the smell of burning leaves to create a delicious aroma?

Also, there are nearly always football games to be enjoyed. I know that none of us would miss the chance to come and cheer for good old GHS.

But these aren't my only reasons for loving fall; not by any means. My greatest reasons lie with Mother Nature herself.

Have you ever really noticed how cleverly she paints each leaf? There are more colors of blue, red, purple, gold and brown than could be imagined. However talented she may be, no artist could ever compare with the ingenious ability of Mother Nature.

So, you see, fall brings so much that I am forced to enjoy it more than I ever could any other season. How about you?

## Know Your Library

How many of us have gone flying past the door of Room 127 and never stopped to look inside. In there, there is another world, entirely different from ours. It is a world of books.

Our school library has in the vicinity of 16,000 books of every conceivable subject known. They are of the most recent publications that the library can get. Approximately 286 new books were received at the beginning of this school year. The teachers worked with Mr. Flickenger to order the books they thought high school people would enjoy most. There are books on social studies, English and American literature; something for almost every class can be found here.

There is always something different in the library. Whenever a teacher receives an outstanding display for her classes, it usually goes to the library for everyone to see. Currently featured is a wonderful display of the Renaissance in France. On the bulletin boards, you can find references to some of the latest books, both fiction and reference.

Also in the library is a science collection of 50 books. These books are replaced every two months by other ones so there is always a new supply.

Some of those who use the library do not realize what a fine reference department our library has. It receives a total of 77 magazines and four newspapers. There is also a file on vocational guidance where you can help yourself to decide on a career.

There are over 200 books checked out each day. Our books can be checked out for a period of two weeks and can be renewed for one week. (A reminder from Mr. Flickenger), "Please remember to stop on the way out of the library to check out your books. This is very important."

Here is a list of ten new books in our school library which you might read in each of your classes:

1. Adventures of Tom Sawyer, by Mark Twain.
2. The Lonely Sky, by William Bridgeman and J. Hazard.
3. Your Young Life, by Marjory Hall.
4. Storm Over Sumter, by Roy Meredith.
5. Gentlemen, Start Your Engines, by Wilbur Shaw.
6. Duke Decides, by John R. Tunis.
7. Walt Whitman, Builder for America, by Babette Deutsch.
8. Count of Monte Cristo, by Alexander Dumas.
9. Other Young Americans, by Delia Goetz.
10. Why the Weather, by Charles F. Brooks.

## Destiny

Through the damp and dreary night,  
The fugitive runs in futile flight.  
As he alone attempts to flee,  
The strange, strong, silent destiny,  
That forces man on, ever forward;  
Ever forward, on and on.

Try as he may, he cannot escape,  
This strange and strong, yet mysterious fate.  
But soon and suddenly he will see,  
And understand strange destiny  
That forces man on, ever forward  
Ever forward, on and on.

And when this moment comes to man,  
And for once he understands.  
He never more will try to flee,  
The strange, strong, silent destiny,  
That forces man on, ever forward;  
Ever forward, on and on.

—BILL HOLLIS

Hi! Here I am again. I've got some more of those jokes. I hope that you like them. I think that they are pretty funny.

\* \* \*

Goofy Guy had two horses but he couldn't tell them apart. He cut the tail off one horse—but it soon grew out again. Then he cut off the mane of one horse. When that grew out, he didn't know what to do. So he called up his uncle and told him the problem. "Wmy don't you measure the two horses," suggested the Uncle.

And that's how Goofy Guy found out the white horse was three inches taller than the black horse.

\* \* \*

"Read that chart," said the draft-board doctor. "What chart?" asked the draftee. I can't see any."

"Right," snapped the doctor. "There isn't any—congratulations, soldier."

\* \* \*

Gary Kukuk: How can a person communicate with a fish?

Bill Kent: How?

Gary: By dropping him a line.

\* \* \*

I think that I shall never see,  
The dollar that I loaned to thee.  
A dollar that I could have spent  
For various forms of merriment.  
The one I loaned to you so gladly,  
The same which I now need so badly.  
For whose return I had great hope,  
Just like an optimistic dope.  
For dollars loaned to folks like thee,  
Are not returned to fools like me.

\* \* \*

I often pause and wonder  
At fate's peculiar ways—  
For nearly all our famous men  
Were born on holidays.

\* \* \*

Daffynishion: Smile—a curve that will straighten out anything.

\* \* \*

John Bowan: Forty-eight hamburgers, please!  
Clerk: All for you?

John: Don't be silly—I have two friends outside.

\* \* \*

Jim Swanson: Where's Terrill today?  
Mike Tate: He's in the hospital.  
Jim: In the hospital? What happened to him?  
Mike: He came down a ladder about ten minutes after someone had taken it away.

\* \* \*

Fred Jahr: Wait! I forgot my mittens.  
Bob Mills: Why don't you tie a string around your finger?  
Fred: Because my mittens are much warmer.

\* \* \*

Mrs. Dunn: A fool can ask more questions than a wise man can answer.  
Peggy Lewis: No wonder so many of us flunked the exam.

\* \* \*

Daffynishion: Grand Canyon—Hole of Fame.

\* \* \*

Sharon Mize had paper and pencil ready as the operator looked up the number. "Madam," the operator said, the number is CApiTal 2-1264." Sharon paused, then asked, "How do you make a capital 2?"

\* \* \*

Mrs. Peel: Roger, did you change the water in your goldfish's bowl today?

Roger: Why, Mother—they didn't drink what I gave them yesterday.

\* \* \*

Here I sit in the moonlight,  
Abandoned by women and men,  
Muttering over and over  
I'll never eat onions again.

—STREAKY

# Finch Stars On Gridiron *Scoop's* And Baseball Diamond SCOREBOARD

As the Silver and the Gold take the field against the Richwoods Knights tomorrow night Butch Finch will be cast in the starting role. Finch has turned out to be one of Galesburg's top athletes on the gridiron as well as in baseball.

Butch is now in his third year of football at GHS. In his initial season, he played for the Sophomore team. He then followed by being a second stringer last year before he moved into a regular berth this year. All three years of football have been spent at the center position which he will occupy in tomorrow night's tussle. Finch is a middle guard while the Streaks are on defense. Prior to his GHS career he played three years of football at Lombard where he was a standout both offensively and defensively. Finch is one of the "big" men in the Streak line as he tips the scales at 188 pounds. He has been hampered this year by two very bad knees. Because of these knees, he saw

limited service in all three Galesburg contests this year.

Butch's other outstanding sport is baseball. It is in this sport that the husky senior has gained most of his recognition. He was one of the standouts of Coach Don Houser's sophomore-studded team while he was a sophomore. That year he smashed the ball for a .404 batting average, and came through with many hits in clutch situations.

In his junior season, he compiled an excellent .358 percentage, and was again among the top hitters. That year Ted Bruington led the team with a whopping .475 average. Butch has spent both of his years in the outer pasture. He and another classmate, Roger Fox, have played left and right field respectively during their sophomore and junior years.

Finch does not confine his activities to school sports alone. He has been a member of the American Legion baseball club for three years. He

has been a standout performer in the outfield and as a pitcher. Although Finch has played outfield for two years at GHS, Coach Houser is expected to employ him as a hurler this season. During the summer, Finch pitched a lot of baseball for the Legion club, and showed such promise that he is expected to become one of the mainstays on the pitching roster.

After he gets out of high school, Butch hopes to continue his education at Bradley. If he is not plagued by his bad knees, this hustling athlete could become a star at his college in either baseball or football.

The GAA is already busily underway for another successful year at GHS. There are five volleyball teams in the Round Robin tournament that GAA is having. In this, a team will play another team several times and the team with the greatest number of points at the end of the season wins. Miss Peterson is in charge of this. It meets Monday and Wednesday after school. The attendance has been good so far, but let's make it better. Sherill Ortman is president.

Orchesis, under the direction of Miss Weikum is having tryouts. The Modern Dance Clinic meets Tuesdays after school while regular meetings are held on Thursdays. Carolyn Higgins, president, reports that 10 to 15 girls will be selected as members of the club. They will compose their own dance and work in a group, as part of tryouts.

Swim Club is also having its Swim Club Clinic Tuesday after school.

## PONIES SCORE 20-18 VICTORY

Galesburg High School's undefeated ponies added another victory to their record Saturday morning at Lombard Field.

In the first quarter the ponies kicked off to Burlington, who returned it to their own 20. On their first play from scrimmage, they picked up a first and ten as they broke around our right end for 50 yards. The next couple of plays resulted in an easy touchdown. The extra point was no good and the score stood at 6 to 0. Galesburg came right back with a counter as Gary Bruington passed to Wayne Gilson 45 yards for the TD. The extra point attempt was good and the Sophs led at the quarter 7 to 6.

Burlington scored early in the second quarter when they moved down to the young Streaks one-yard line with a few quick passes. On the next play they went over for the touchdown to make it 12 to 7.

When the third quarter opened Burlington kicked off to the Ponies who couldn't do anything with it and had to punt on fourth down. In turn, Galesburg's defense forced Burlington to punt also. This time the young Streaks wasted no time, as Gary Bruington passed successfully to Bob Prather on the 50, and then to Phil Ulm on the 42. Gary continued his passing down to the 20 yard line where Lindell Goodman took it from there and ran the rest of the way to paydirt. Bruington passed to Ulm for the extra point making the score 14 to 12. Galesburg blocked Burlington's punt and took it back down to the two-yard line where Gary Bruington went over on a quarterback sneak.

## Junior Varsity Fights To Draw At East Moline

The Galesburg JV's had victory taken from them in the last minutes of play, Saturday on a 74-yard punt return at East Moline.

Bud Bravo made the spectacular scoring play with but 2½ minutes left in the contest. He received a Galesburg punt on the East Moline 26-yard line and rambled 74 yards to paydirt and the tying score.

The Junior Streaks drew first blood in the ball game when Jim Arnold intercepted an East Moline pass and went 50 yards for the touchdown. As the first period neared a close, Kent Pico drove 35 yards off tackle and Gene Sandidge kicked the extra point to give Galesburg a 13-0 lead.

## Sophs Vie With Tough Central

On October 11, Galesburg's undefeated sophomores will travel to Peoria to be guests of the big and speedy Peoria Central sophomores, who are undefeated in the '58 season. One of the victories which Central has recorded is an impressive win over a powerful Peoria Woodruff team.

Central and Galesburg did not meet each other on the gridiron last year, but the ninth grade team at George Church-ill fought to a tie with the Woodruff Junior High, while Woodruff was slaughtered by Central.

### Central Has Big Line

Peoria Central has a big line which is extremely hard to move and they have a smart quarterback in Charley Chance; also they have a speedy halfback in John Ham-mer and a powerful fullback in big Mickey Martelli.

### Three in a Row for Sophs

The Galesburg Ponies have won three straight games and 12 in a row since Don Houser became head coach of the Ponies in '57. (The Burlington game had not been played when this article went to press.) The Streaks hold a 27-12 victory over Canton; a 13-12 triumph over a powerful Woodruff team, and a 68-6 victory over a weak Mon-mouth team.

Although the Ponies will have their hands full when they are guests of the Peoria Central Lions, they will have a rugged line led by center Tom Humphrey, and guards Dave Dunham, Jim Mason, tackles Jack Anderson, and big Mike Gehring.

At the ends the Ponies will have Bob Prather and Jack DeWeese who have done a great job offensively and de-fensively. In the backfield, the Ponies have speedy and clever Bobby Ponce at left halfback, and they have a fast runner in Wayne Gilson, formerly a guard, at right half. At full-back is either Hank Guterrez or Roger Hallberg. Calling the signals will be a smart quar-terback in Gary "Butch" Bru-

## Raiders Top Silver Streaks

The Galesburg High School Silver Streaks had their bid for a third consecutive vic-tory spoiled last Saturday at East Peoria by a very fast and hard-running Red Raider crew, 20-18.

The Streaks started off like they meant business as they drove 75 yards for their first touchdown. Phil Stewart, GHS quarterback, picked up the touchdown on a one-yard plunge. Bob Mills and Dave Cox did most of the ball carry-ing while the Streaks were en route to this six-pointer.

The Van Dykemen did not enjoy their lead very long as Jerry Nena led a vicious drive downfield in the second stan-za for the Red Raiders. He finally tallied from two years away, and added the extra point.

East Peoria began another long march which carried them down to the locals' nine-yard line before Dave Cox in-tercepted a pass. The redhead climaxed a 54-yard drive with a five-yard touchdown jaunt. The teams left the field with GHS holding a 12-7 halftime lead.

The East Peorians struck paydirt through the air in the third period of play on a 34-yard pass from Dennis Harley to Ronnie Rogers. Nena went over for the extra point.

East Peoria then contrib-uted in the final frame on a 12-yard toss from Harley to Steve Thomas. The Raiders failed to convert, but with the Streaks trailing 20-12, things looked bad.

However, the Silver and the Gold fought back and Cox led the way to another TD, finally scoring from the one-yard line.

With 55 seconds remaining the Streaks fumbled on the four-yard line of East Peoria.

Len Shane, 102nd; and Clin-ton Kelley, 105th.

The Streaks' next cross country meet is tonight at 4 o'clock at Lake Storey with Monmouth. Remember, to do a good job a team needs your support.

A meeting of The Future Nurses of America will be held Wednesday, October 15, 1958 at 7:30 in room 211. A woman from the Michael Reese Hos-pital in Chicago will lecture the members and show them slides about the operation of the hospital.

## Seek Important Victory Face Richwoods Crew

Galesburg is host to Peoria Richwoods on October 11 at 8 o'clock on Lombard Field. This should be a tough game, considering that Richwoods is ranked as one of the top two or three teams in Peorialand. The other strong teams in that area are Pekin, Manual, and Spalding. These teams have been per-ennially tough on the gridiron as well as in other athletic events. As for Richwoods, a new school, this is their second

year of football and their first appearance on Lombard Field.

Galesburg met the Knights in Peoria last year. It was a hard-fought game but the Streaks overcame them with a 28-14 victory. An intercepted pass by Dave Stamm, which was run for a touchdown, helped to clinch the Galesburg win. The Sophomores had a scheduled clash but it was not held due to the flu epidemic.

### Richwood Is Good Team

This season has led the Streaks and Richwoods to the same standings at this writ-ing. Richwood has had vic-tories over both Decatur-Eis-enhower 32-7, and Peoria Spalding 32-13. Although De-catur is not an extremely fine ball club, Spalding, who re-ceived a bad beating at the hands of Coach Tony Juska's charges, defeated Canton by the same margin as Galesburg did, 40-0. Pekin, as stated be-fore, one of the toughest ball clubs in Central Illinois, gave the Richwood club a solid 25-7 walloping. This game did not show off the qualities of Rich-wood as well as the others. They had a couple bad breaks for which they could not com-pensate.

### Juska Is Tops

The coach for Richwoods, Tony Juska, has had previous success at Peoria Central. He instills a lot of fighting spirit in his boys that keeps them going when the chips are down. He is like his team in the way he takes advantage of every error of his opponent, playing "opportunistic foot-ball." He uses a split-T forma-tion spread out over the field.

### Novak Stars

The team is real sharp de-fensively and has good down-field blocking. In back of this line made up of returning let-termen is the fast, experi-enced backfield sparked by Jim Novak, 6' 1", 190-pound senior quarterback. Novak is a triple threat in that he can kick, pass, and run well. The rest of the backs are small, fast and weigh in around 160 pounds. Since Richwood is a new school, the first string is composed of seasoned veter-ans.

The Streaks have a fine team which may be the Knights even though they are considered to be so good. With Phil Stewart, Dave Cox, Bob Mills and probably Vern Kimbrough in the back-

The intramural program is now well under way with four events completed and three more in progress. Mr. Fish, in-tramural sponsor, has appoint-ed Harry Westfall and Jerry Shafer as his assistants for the year.

Mike Simmons won the boys' ping pong singles tourn-ament, with Terry Grady, Ron Litvin and Ed Hill taking second, third and fourth, re-spectively. Ping pong doubles was won by Don Nelson and Bill Swanson. Second was taken by Ed Hill and Bill Kneebone, Bill Lemmer and Lowell Peterson got third, and Tom Williams and Dick Stree-dain took fourth.

Boys' archery was won by Larry Dean. He was followed by Jerry Shafer, Sanford Searl, Bob Tomlin, and Jim Miles in that order.

In the golf tournament, John Owens meets Ralph Fos-ter. The winner is to play Bill Underwood for first, and the loser will battle Bob Coe for third.

Tennis finals find Ed Hill slated against Ed Crowell for first and second. Maury Bak-er will play Bill Kneebone for third and fourth.

Events coming up in the near future include: flicker ball, co-recreational archery, boys' badminton doubles, co-recreational badminton dou-bles, and tug-of-war. Also keep in mind: basketball, bowling, and boys' recrea-tional swimming for November sports.

Since Don Houser has been at the helm of the Ponies in football, they have yet to lose a game. Under Houser, who also coaches sophomore basket-ball and varsity baseball, they have now scored 12 straight victories.

Vern Dargel, Mickey Swise, Bob Griffith, Steve Gaffney, Mike Gorham, and John Price are the managers for football this season. "Ace" Dargel along with Mike Lawrence keeps the statistics for the varsity foot-ball games.

Last Monday, Carl Sandburg, Galesburg's great poet-author, spoke to a multitude on the east side of historic Old Main on the Knox College Campus. The speech marked the climax of "Carl Sandburg" day in Galesburg.

Mr. Sandburg compared the pioneers of today with those of 1850 by saying that while a century ago the pioneers used muscles and a booming voice, today the pioneers are the scientists working with a pencil and paper.

He said that it was unfortunate that today's society considered the professor, the little insignificant man who graduated from Annapolis as the man of war of the present.

He was speaking of Rear Admiral Hyman Rickover who designed the atomic sub, Nautilus, and made possible the first underwater passage beneath the North Pole. According to Mr. Sandburg, that voyage was a feat of navigation "as great as that of Christopher Columbus sailing to San Salvador."

He warned that progress also brings about war threats but then optimistically stated that, "More pioneers favoring human solidarity, better relations between ownership management and labor will mean peace."

Then turning to the many students in the crowd, he said, "You are the future to the next 100 years of history." He added an extra plea to the youth to handle their responsibilities with wisdom.

Having concluded his address, Sandburg picked up his guitar and rendered a few ballads, much to the delight of the crowd.

As Mr. Sandburg spoke, the Sculptor Arvid Fairbanks from Salt Lake City modeled his distinguished bust in clay.

Sandburg, a native of Galesburg, was introduced by another famous ex-Galesburg man, Otto Harbach. Harbach is one of the leading songwriters and lyricists in the country.
